1. Concentration of Soviet troops continues to be greatest in Lower Silesia, with engineers ("Inżynierka units") and the air force predominating. Following are changes and anticipated changes:
 - (a) Wroclaw. The barracks now occupied by the Wroclaw-Kirlowice Army supposedly will be emptied and put at the disposal of the Soviet Army.
 - (b) Brzeg. According to unconfirmed reports the entire garrison (about 10-thousand troops) will leave for Zancuvers. On 8 Sep 47 some 210 engineers left in the direction of Piraszew.
 - (c) Opole. Barrecki heretofore occupied by the Polish Army have been transferred to the Soviet armored forces.
 - (d) Bialystok and Olsztyn. Information that Soviet Forces are coming into Malborg is confirmed. Units currently are arriving in Krolewiec and Brasiew. Around Bialystok no units other than guards at railroad junctions and DEVT have been noticed.
 - (e) In late October and early November transports of Russian families from the Soviet Zone [no indication as to whether this refers to Soviet Zone of Germany] arrived at Szczecin and Slupsk. Soviet quartermasters are surveying space in Slupsk, where two Soviet division are expected.

2. Following is some information on military installations:

- (a) Pobieda (Brzeg region) - An airfield some 170 ha in size.
- (b) Czerny airfield (near the Wroclaw-Czerny road) - larger pursuit units noted.
- (c) Modly (between Lignica and Zagan, north of Wroclaw) - An old German underground factory for production of V-1 and V-2 rockets is located here. It is now occupied by Soviet troops (two or three divisions), aircraft and engineer units. The terrain is forested and surrounded by barbed wire, and is well patrolled and guarded. In the forests nearby are large dumps and storage spaces, all guarded by Soviet troops.
